

100% Emergency Shut-Off

Technical Documentation

GasStop is an emergency shut-off safety device for propane gas cylinders.

In the event of a major leak, GasStop will shut off 100% of the gas supply immediately, mechanically and autonomously. A fantastic safety product for RVs, motor homes, boats and more.

Manufactured to the highest quality and comes with a manufacturer's warranty of 5 years.

Easy to fit and has an easy to read pressure indicator so that you know when you're running low on gas.
